

Milestone 2: Application Creation – Step-by-Step Process

Objective

Create the **Smart Leave Approval System** application in ServiceNow Studio.

Step 1: Open ServiceNow Studio

Navigate to:

All → Studio

Click:

Create Application

Step 2: Create a New Application

Select:

Create Application → From Scratch

Fill the details:

Field	Value
Name	Smart Leave Approval System
Scope	Auto Generated
Version	1.0.0

Click:

Create

Step 3: Verify Application Creation

Studio opens automatically.

Verify:

➤ Smart Leave Approval System

appears in the Application Explorer.

Step 4: Create Application Menu

In Studio:

Create Application File

Select:

Application Menu

Fill:

Field	Value
Title	Smart Leave Approval System
Roles	Leave blank initially

Click:

Submit

Step 5: Create Employee Role

In Studio:

Create Application File

Select:

Role

Fill:

Field	Value
Name	Employee

Click:

Submit

The screenshot shows the SAP User Management interface for a user named 'Test Employee'. The user ID is 'employee1'. The user is active and has the identity type 'Human'. The user is associated with the role 'x_1877519_smart_0.employee'. The interface includes fields for personal information, contact details, and a list of roles.

Role	State	Inherited	Inheritance Count
snc_required_script_writer_permission	Active	true	1
x_1877519_smart_0.employee	Active	false	

Role created:

x_1877519_smart_0.employee

Step 6: Create Manager Role

Create another Role:

Field	Value
Name	Leave Manager

Click:

Submit

The screenshot shows the 'User Manager' interface. The top section contains user details for a user named 'manager'. The details include:

- User ID: manager
- First name: Leave
- Last name: Manager
- Title: (empty)
- Department: (empty)
- Password needs reset: ☐
- Locked out: ☐
- Active: ☒
- Identity type: Human
- Internal Integration User: ☐
- Email: manager1@test.com
- Language: -- None --
- Calendar integration: Outlook
- Time zone: System (America/Los_Angeles)
- Date format: System (yyyy-MM-dd)
- Business phone: (empty)
- Mobile phone: (empty)
- Photo: Click to add...

Below the user details, there are buttons for 'Update', 'Set Password', and 'Delete'. A 'Related Links' section includes links for 'View linked accounts', 'View Subscriptions', 'Reset a password', and 'ISN Utilities Versions (0)'. At the bottom, there is a table titled 'Entitled Custom Tables' with columns for 'Role', 'State', 'Inherited', and 'Inheritance Count'.

Role	State	Inherited	Inheritance Count
x_1877519_smart_0.manager	Active	false	
snc_required_script_writer_permission	Active	true	1

Role created:

x_1877519_smart_0.leave_manager

Step 7: Create Apply Leave Module

In Studio:

Create Application File

Select:

Module

Fill:

Field	Value
Title	Apply Leave
Application Menu	Smart Leave Approval System
Link Type	New Record

Click:

Submit

Step 8: Create My Leave Requests Module

Create another Module.

Fill:

Field	Value
Title	My Leave Requests
Application Menu	Smart Leave Approval System
Link Type	List of Records

Table will be configured later.

Step 9: Create Manager Dashboard Module

Create another Module.

Fill:

Field	Value
Title	Manager Dashboard
Application Menu	Smart Leave Approval System

Module

New record

Title

Smart Leave Dashboard

Application
